Omkar Kardile — Full Stack Developer & UI/UX Designer

omkardile84@gmail.com | 8888785222 | Pune, Maharashtra | GitHub | LinkedIn | omkardile-portfolio.vercel.app

SUMMARY

Full stack developer and UI/UX designer who builds web, Android and Windows apps with React, Next.js, TypeScript, Node.js and Supabase. Built a real-time e-commerce platform for a client, a café operations platform, and a shop ERP that ships on web, Android and Windows. Designs interfaces in Figma.

EXPERIENCE

Virtual Intern, Bharat Technologies — August 2023 – December 2023
Web Development Intern, Arrow Technologies, Nashik

EDUCATION

PG-DMC (Mobile Computing), SunBeam Infotech, Pune (C-DAC ACTS) — Aug 2025 – Feb 2026 | 203/280
B.Tech, Computer Engineering, D.Y. Patil School of Engineering & Technology, Pune — 2025 | 70.00%
Diploma, Computer Engineering, K.K. Wagh Polytechnic, Nashik — 2022 | 80.4%
Class X, Marutirao Kote Abhinav Public School (Maharashtra State Board) — 2019 | 75.2%

PROJECTS

PatelNetworks | Client project, real-time e-commerce — Live

- Real-time e-commerce platform built for a real client and deployed live on Render. Source code is private.

ServePoint | React, TypeScript, Vite, Tailwind CSS, Zustand, Supabase — Live | GitHub

- Café operations platform with role-based access (SuperAdmin, Owner, Staff): ordering with GST checkout, billing, live kitchen queue, inventory with recipes, table booking and end-of-day reports.
- Guests order from a table QR code with no login (short-lived signed sessions). Supabase with Row-Level Security; installable PWA.

SSShopee ERP | React, TypeScript, Vite, Tailwind CSS, Capacitor, Electron — Live | GitHub

- Built for Shubham Super Shopee: inventory with low-stock alerts, supplier purchases, daily income and expenses, udhar (credit) ledgers, a dashboard and a yearly overview.
- Offline-first; ships as a web app, Android APK (Capacitor) and Windows installer (Electron) from one React codebase.

HandOff | Next.js, TypeScript, Capacitor, Tailwind CSS, Zustand — GitHub | Release

- Privacy-first digital business card app that generates vCard QR codes offline, on web and Android (Capacitor). No accounts or servers; a check:privacy script audits the code for network calls.
- 36 style presets, PNG/SVG/vCard export and a live scan-contrast check. Actively developed; beta.v1 is on GitHub Releases.

tech // site | Next.js, TypeScript, Supabase, Tailwind CSS, Gemini API — Live | GitHub

- Multi-niche tech publication (9 niches): admin account with an AI drafting tool (Gemini), plus open signup for readers who write and publish manually.
- Reader library (saves, highlights, notes, collections), public profiles, following, comments, and a product catalog with comparison and recommendations.

Bandwidth Bandit | Android, NetworkStatsManager — GitHub

- Android network monitor: live-speed notification, daily Wi-Fi/mobile usage history, per-app traffic breakdowns, usage alerts and a quick speed test.

Aether Weather App | OpenWeatherMap API — Live

- Upgraded version of my earlier weather app, showing weather data from the OpenWeatherMap API.

AI Recipe Generator | React Native, Node.js, Express.js, Gemini API — Live

- Generates recipes from the ingredients a user has, using the Gemini API through a Node.js/Express.js backend.

Online Car Service Station | React Native, Node.js, Express.js, React — GitHub | Admin Panel

- C-DAC PG-DMC major project: React Native hybrid app with a Node.js/Express.js backend and a React admin panel.

SKILLS

- **Languages:** JavaScript, TypeScript, Java, Python (basic), SQL, VB.NET, HTML5, CSS3
- **Frameworks:** React.js, Next.js, Node.js, Express.js, React Native, Flask, Tailwind CSS, Zustand
- **Web & App:** RESTful APIs, authentication/authorization, role-based access, responsive design, SSR, SSG, PWA, SPA, Expo, Capacitor, Electron, Android SDK, offline-first apps
- **Databases & Tools:** Supabase (PostgreSQL), MySQL, MongoDB, Firebase; Git, GitHub, VS Code, Postman, npm, Vercel, Render, Axios
- **Design & AI:** Figma, wireframing, prototyping, design systems; Gemini API, OpenAI API, OpenWeatherMap API
- **Currently learning:** Docker, NestJS, GraphQL, Redux Toolkit, Flutter, Jetpack Compose, Kotlin, Dart, Go

CERTIFICATIONS

- **Udemy:** Android App Development Bootcamp (Kotlin); Python and Flask Framework; Python Web Dev Pro (Flask/Django/HTML/CSS/Bootstrap); Web Development Masterclass; UX Design A-Z (Adobe XD)
